

Week of:	Dec 5-9	Location	E110
Topic			
Introduction to Microsoft Paint			
Objective			
Students will participate in a demonstration of Microsoft paint. Students will practice using Microsoft Paint by tracing a transparency			
Materials			
paint instructions			
Before the lesson			
Open Microsoft Paint. Check the size of the white part on the screen and make sure screen is maximized.			
During the Lesson			
<ul style="list-style-type: none"> ➤ Seat students on floor in front of the screen ➤ Explain to students that they are going to learn to draw on the computer using Microsoft Paint. <ul style="list-style-type: none"> ○ We're going to learn to use the tools to make a picture on the computer after I finish showing you how to use the software. ➤ Use the directions attached to demo the Paint. ➤ When you finish the demo, let them go to the computer and draw on the computer using Paint. Give them suggestions of what to draw – flower, circle, square, or anything else they want to try. ➤ Remind them to click on the paintbrush to start and to change their colors by clicking on a color at the bottom. ➤ If you're feeling brave 😊 have them click on File→ New so that it is ready for the next class before they line up 			
After the Lesson			
<ul style="list-style-type: none"> ➤ If the kids didn't go to File→ New, go around and set up for the next class.
